

Construction & Demolition Debris (C&D waste)

WHAT? The Massachusetts Department of Environmental Protection (MassDEP) amended the State Waste Bans (310 CMR 19.017) to add certain construction and demolition materials (asphalt pavement, brick, concrete, metal and wood) to the list of items prohibited from disposal, transfer for disposal, or contracting for disposal on July 1, 2006. These items are no longer collected as trash and must be recycled by contracting a private hauler.

WHY? Increasing recycling and other diversions of C&D materials helps support development of in-state processing businesses and preserves valuable, limited disposal capacity in the Commonwealth.

MassDEP set a goal to reduce non-municipal solid waste by 88% in 2010. To reach this goal, the MassDEP proposed to increase recycling and reuse of construction and demolition debris.

For more information on the Waste Bans, visit MassDEP's website:

<http://www.mass.gov/dep/recycle/solid/regs0201.htm>

WHAT DOES THIS MEAN FOR NEWTON RESIDENTS?

To be in compliance with the new Waste Bans, Waste Management (WM), Newton's curbside trash collector, will not pick up any banned materials (asphalt, brick, concrete, metal). To dispose of these materials, please contact a private hauler. See below for listings.

Although per City Ordinance (Chapter 11-4), the City can charge for bulky waste, WM will collect very small quantities of household demolition material (tile, flooring, drywall, etc.) when done by a homeowner. This material must be in compliance with City trash regulations: bags and barrels must weigh less than 50 lbs and material not fitting into barrels, must be cut and tied to 4 foot lengths. For more information on Newton's trash guidelines, please visit

http://www.ci.newton.ma.us/DPW/recycling/residents/trash_guidelines.htm

Construction Demolition Waste: (C&D)

- . [New England Recycling](#), Taunton, 508-822-4345
- . [E. L. Harvey & Sons](#), Westborough, 800-321-3002
